MINE DISCOUNTED CASH FLOW (DCF)

A Discounted Cash Flow (DCF) is the present worth of projected future net income. Please use this form as a guideline to project your future income and expenses. Base your future income and expenses on your mine plan. Please complete both the past year's income and expenses and project the future years' income and expenses based on the remaining economic life of the mine. Only expenses directly related to, and necessary for, the mining operations are allowed. Each non-contiguous location is considered to be a separate mine and should be reported separately.

1. **GROSS MINERAL SALES:** Enter details on DCF Sales Schedule 1: Identify the mineral type, number of units sold (tons, oz. etc.) and the gross mineral sales received. Gross contract prices should be used to calculate gross income.
